

CENTRAL ELECTRIC COOPERATIVE, INC.

President's Quarterly Newsletter

April 2006

Dear Member:

If paying your electric bill via the Internet is not something you're comfortable with, there's still a way to avoid the hassle of buying stamps, licking envelopes, etc.

Every month, more than 2870 Central Electric members are paying their bill without leaving the comfort of their home through our "Direct Pay Plan."

The process is fairly simple. You fill out an application that CEC provides (it's on our website www.hometownutility.com, or we can mail it to you) that instructs your bank to automatically make your customized payment for your electric bill on the due date each month.

You will still receive a paper bill for your personal record keeping from CEC each month. It will tell you how much electricity you have used in the previous month, how much money you owed, and how much money was drawn from your bank account.

For more information about the "Direct Pay Plan," contact one of our customer service representatives.

Sincerely,

Al Gonzalez
President, CEO
