

VARIABLE FREQUENCY DRIVE (VFD)

PROGRAM DESCRIPTION

Eligibility: This Bonneville Power Administration (BPA) program is offered to Central Electric Cooperative (CEC) irrigation accounts that have an existing, electrically powered turbine style irrigation pump with substantial variation in flow rates (20% or more) and/or discharge pressure requirements (10% or more). Installations must meet IEEE 519 standards. The account must have at least two full years of “typical” energy use history for evaluation purposes.

1. Determine that your irrigation system is eligible for the program.
2. Send a copy of the VFD bid proposal from your contractor, and this application, to CEC Irrigation Program, P.O. Box 846, Redmond, OR 97756 (fax 548-0366).
- 3. DO NOT BEGIN WORK, OR ORDER EQUIPMENT, UNTIL YOU HAVE RECEIVED A WRITTEN APPROVED APPLICATION FROM CEC.**
4. Once the application and proposal has been reviewed & approved, the application will be signed by a CEC representative and returned to you. You will schedule with your contractor when work will begin.
5. Your contractor will notify CEC when the work is complete. Once the job has been verified as correct and complete CEC will send the rebate check to the customer listed on the approved application.
6. You are responsible for making payment arrangements for any job costs not covered by the rebate amount.

Rebate Amount: \$80 per installed nameplate pump horsepower controlled by the VFD and approved by CEC. Note: BPA programs are subject to change without notice.

VARIABLE FREQUENCY DRIVE (VFD) PROGRAM REBATE APPLICATION

1. Send a copy of the VFD proposal from your contractor and this application, to CEC Irrigation Program, P.O. Box 846, Redmond, OR 97756 (fax 548-0366).
2. DO NOT BEGIN WORK UNTIL YOU HAVE RECEIVED A WRITTEN APPROVAL FROM CEC.
3. Once the application and proposal have been reviewed and approved, the application will be signed by a CEC representative and returned to you. You will schedule with your contractor when work will begin.
4. Your contractor will notify CEC when the work is complete. Once the job has been verified as correct and complete, CEC will send the rebate to the applicant listed below. The maximum BPA rebate is \$80 per horsepower.

Owner Name (Please Print) _____ Date _____

Contact _____ Phone _____

Mailing Address _____ City _____ Zip _____

Phone _____ Cell _____ email _____ Fax _____

Project Information:

Irrigation account number: _____ Operational hours per year _____

Project site address, if different: Address _____ City _____ Zip _____

Type of crops grown _____ What is the pump hp? _____

How many acres are irrigated by this pump? _____

Reason for VFD: Pump is oversized Pump runs at a range of flow & pressure conditions

How is the pump controlled now: Throttling valve/pressure regulators Flow bypass

Type of turbine pump (e.g., well, booster) _____

Actual or rated pump total dynamic head (TDH) _____ and flow (GPM) _____

Maximum evaluation difference across the field in feet _____ Maximum flow changes in GPM _____

Estimated site savings in kWh from VFD software program _____ kWh/yr

Name and version of VFD spreadsheet software used to estimate kW savings:

Name _____ Version _____

- I, the undersigned, as the owner of the property at the above address, certify the information on this application is true and correct.
- I have read the CEC IRRIGATION PUMP VARIABLE FREQUENCY DRIVE (VFD) PROGRAM DESCRIPTION and I understand and agree to the provisions for the program. I understand that if these instructions are not followed, CEC is under no obligation to grant or disburse program funds.
- By executing this agreement, I waive any and all claims against CEC that may arise from the installation of said improvements.

Owner Signature _____ Date _____

Note: This program is funded by the Bonneville Power Administration and is subject to change without notice.
