

CENTRAL ELECTRIC  
COOPERATIVE, INC.

## Building a solid foundation for energy efficiency.

Central Electric Cooperative (CEC) is pleased to offer a residential weatherization program to members. This program can help owners of electrically heated homes improve efficiency, control heating costs, and increase comfort levels. CEC will assist by providing a financial incentive, technical assistance, and quality control to help get the job done right.

Based upon the results of a free home energy analysis, CEC will recommend specific weatherization measures. This analysis must be performed prior to the installation of any weatherization measures. Once the analysis of your home is complete, you may apply for a discount or a low interest rate loan to finance the project. The loan is available through CEC's lending partner, Bank of the Cascades, at the "prime" interest rate. We'll also provide a list of participating weatherization contractors and perform quality control checks to ensure that the work is done properly.

# WEATHERIZATION PROGRAM

Bank of the Cascades  
HOMETOWN OREGON

Member FDIC 

*Receive a cash discount off the cost of the weatherization work, or a low-interest loan (Bank of the Cascade's prime rate).\* And, CEC's energy specialists will verify that the work done by your contractor meets quality control standards.*

*\* based upon credit approval*

CENTRAL ELECTRIC  
COOPERATIVE, INC.

## Who is Eligible?

Owners of single-family and multi-family homes that have permanently installed electric heat.

## What Weatherization Measures Are Eligible?

- Insulation for ceilings, floors and walls
- Duct efficiency improvements
- Replacement windows

## Are there any financial incentives available?

Yes, there is a cash discount or a low interest rate loan. You can choose either one, but not both. The amount of the discount

varies with the weatherization measures you choose. CEC's Energy Specialist can tell you the specific amounts after analyzing your home. The low interest rate loan is from Bank of the Cascades. The loan interest rate is the current "prime" lending rate, the rate enjoyed only by the bank's best customers.\* You can get an unsecured loan for 100% of the job cost up to \$5,000.00; additional job costs are financed at 2% above prime. There is no loan fee and no penalty for early payment.

\* based upon credit approval

Note: This program is funded by the Bonneville Power Administration (BPA) and is subject to change without notice.

Member FDIC 

## Who does the weatherization work?

We have a list of weatherization contractors for you to work with. Any company doing work through the program must agree to abide by BPA weatherization specifications.

## Can I do the weatherization work first and then get a rebate?

No. Any work done without prior CEC approval is not eligible.

## Can I do the work on my own home?

Yes. You must abide by BPA weatherization specifications and pass an inspection, just like a contractor would. You can get a rebate based on your documented material costs.

## Sounds great, what do I need to do to participate?

Just call us and sign up for the weatherization program. We'll do a free on-site energy analysis and get you started on weatherizing your home.
