

# YOUR BILL

**MONTHLY BILL MESSAGE** — This area is used to provide safety, energy efficiency, etc. information to our members.

**MULTIPLIER** — Used to multiply the meter usage and calculate the actual kilowatt hours.

**METER READING DATES AND READINGS** — This area shows the previous reading date and reading and the present reading date and reading. The difference between the two readings is your kilowatt hour usage for the month (times your multiplier).

**ELECTRIC CHARGES** — This area shows the breakdown of charges for your kilowatt hour usage, security lights charges, and "Project Helping Hand" donations.

**FACILITIES CHARGE** — The facilities charge covers basic fixed costs – poles, wires, etc.—of serving you no matter how much or how little energy you use. Without a facilities charge, we would have to raise the kilowatt hour rate to cover these fixed costs.

**OTHER ACTIVITIES** — Any billing adjustments to your account, such as a deposit, membership fee, NSF check fee, Green Power, disconnect fee, loans, or surge suppressors.

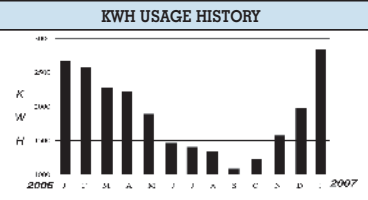

**DAILY USAGE HISTORY** — This graph shows you the total kilowatt hours of electricity you consumed each month and for the previous 12 months. It also compares how much you consumed in the same month a year ago and what your average cost per day was in the most recent billing month.

**CENTRAL ELECTRIC COOPERATIVE, INC.**  
 PO BOX 846  
 REDMOND, OREGON 97756
